

How to Build an Assembly - Section 3: What Should our American Government Look Like?

Before we discuss what it should look like, let's review some basics:

1. Our American Government created the Federal Government, and in fact, precedes it by over 10 years and in part, by over 30 years!
2. Our American Government far exceeds the Federal Government in authority, power, and standing.
3. The Federal Government is merely an “instrument” of our American Government, and was never intended to serve foreign interests:

The Federal Government has three branches created by the three constitutions, which are contracts between the American Government and the specific Federal Subcontractor.

Federal Constitution 1787:
The Constitution for the united States of America” Gives rise to the Federal branch in charge of operating delegated business for our country in the realm of International Trade & Commerce.

A Constitution is a Debt Agreement

Someone serves. Someone pays.

Each constitution is a power sharing agreement between the American Government (the Federation of States) and the specific branch of Federal Government that Constitution is responsible for setting up. Each Constitution delineates the rights and responsibilities of its specific branch of the federal Government.

Section 24 of the Jural Assembly Handbook

Territorial Constitution 1789:

The Constitution of the United States of America” Gives rise to the Territorial branch (farmed out to the British Territorial United States) in charge of the combined military and territorial property management business.

Municipal Constitution 1790:

“The Constitution of the United States”

Gives rise to the Municipal branch (left in the care of the Pope and the Holy Roman Empire) in charge of Municipal and air jurisdiction business delegated to it.

Very little mention of the American Government is made in any of the Constitutions, for the simple reason that we and our American Government are not the subject of these venerable documents. We are the originators doing the setting up and delegating.

That is, the Federal Subcontractors are not only the subject the constitutions address, they are the ones Subject to the Constitutions.

Americans stand under The Unanimous Declaration of Independence.

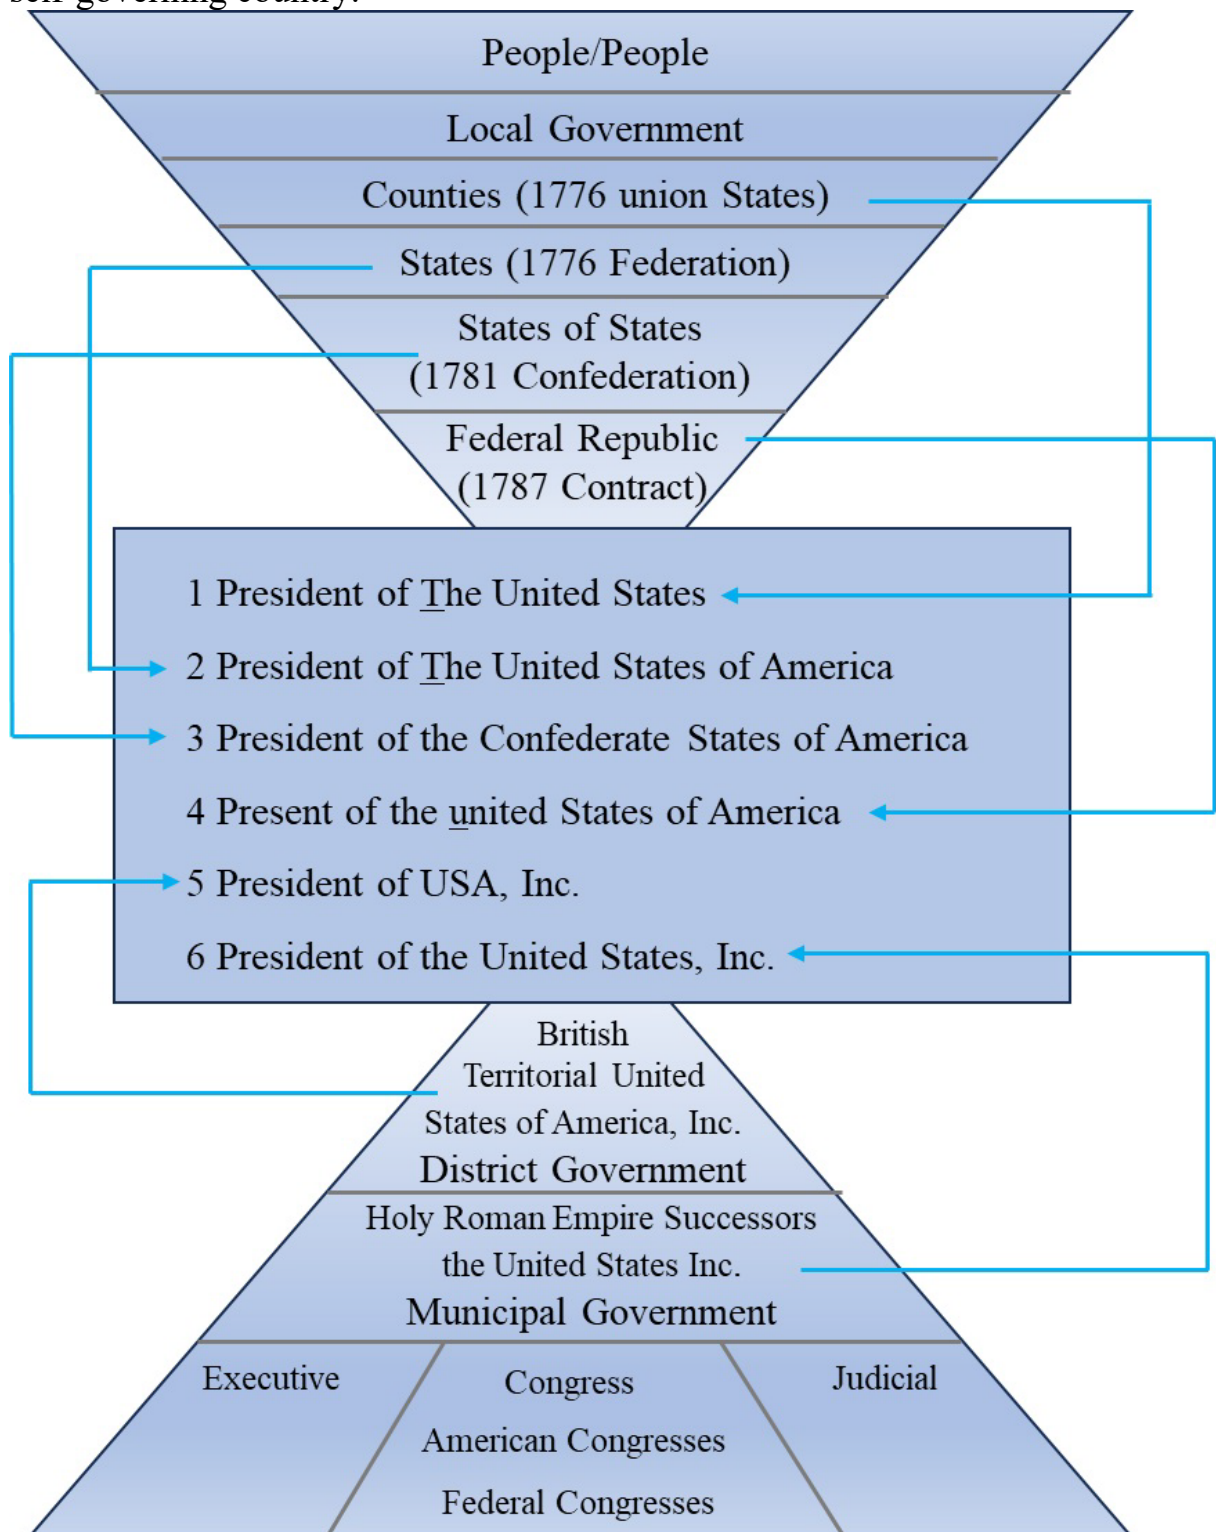

Federal workers of all kinds stand under their specific Constitution.

Please note that the American Federal Republic workers are missing and their Constitution has been dormant since 1860.

So, back to what our American Government should look like...

When we say, “what our American Government should look like,” we are referring to **how it looked before it disappeared 160 years ago**. From collections of historical documents and writings we can piece together descriptions and diagrams and flow charts to see how it was organized, but we need you to help bring these diagrams into life; to form and animate the organizations that will provide the services we need to function smoothly as a

self-governing country.

The people direct their local city or town
government,
their county government,
their State government,
their State -of-State government.

The State is a member of the Union (National) dba The United States.

The American Government

Please Notice These Facts:

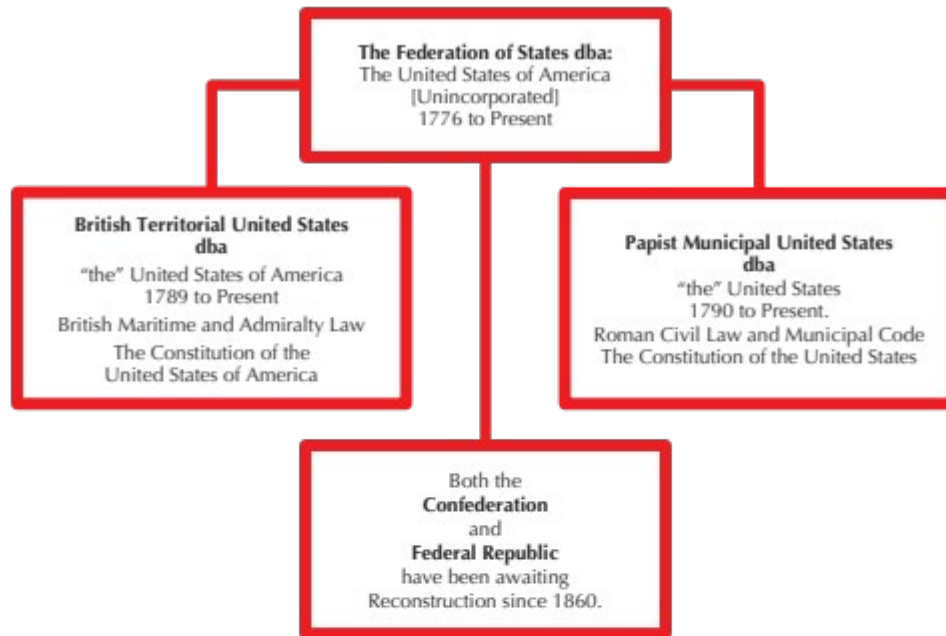

1. Our republican states of the Union exist at the level of our National Soil Jurisdiction in each county and taken all together the counties comprise The United States.
2. Our counties have no access to International Jurisdiction except via their State of the Union.
3. The United States delegates power to the Federation of States and People operating in the International Jurisdictions of Land and Sea and Air: The United States of America.
4. Observe that The United States of America functioned for five years on its own, in all foreign jurisdictions, from 1776 to 1781, and is competent to do so again.
5. None of these elements of our American Government are based on any “constitution” — they exist because of The unanimous Declaration of Independence, which is the Foundation of all else that follows.
6. The Confederation ceased to function in 1860 when it lost the quorum necessary to conduct business.
7. All powers exercised by the Confederation on behalf of the American States and People returned to the Federation by Operation of Law in 1860.
8. The United States of America, our unincorporated Federation of States was and is and remains our fundamental instrumentality to conduct both international and global business.
9. Our Federation has been at peace since 1814. It flies its own Civil Peacetime Flag.

The Federal Government

Please Notice These Facts:

1. When the Confederation ceased to function in 1860, so did the Federal Republic, which was an instrumentality of the Confederation.
2. Neither the Confederation nor the Federal Republic could function during the Civil War, even though the member State of State organizations formed separate “confederacies” — one for the North, calling itself “the” Union, and one for the South, calling itself The Confederate States of America.
3. After the hostilities ended in 1865, The United States of America was not called into Session even though it is the only entity able to reconstruct both the Confederation and the Federal Republic — and also the only one competent to conduct business in their absence.
4. This error has now been corrected.
5. All fifty States of the Union have been called into Session.
6. All Americans are called to join their State Assemblies.

Please Notice These Facts:

1. A third of the actual American Government, our American Confederation, has been inoperable since 1860.
2. A third of our intended Federal Government, the American portion known as the Federal Republic, has been inoperable since 1860.
3. The remaining foreign-operated Federal Subcontractors usurped upon the powers of our missing American Subcontractor and continued to operate on "an emergency basis" and they invoked non-existent unauthorized "emergency powers" to do so.
4. All of this is pure fraud, because all the powers delegated to the Confederation and the Federal Republic returned by Operation of Law to our unincorporated Federation of States doing business as The United States of America the instant these Subcontractors d.
5. The Scottish Bunko Artists came in and supplanted our unincorporated Federation at the time by (a) attacking the leadership of the Federation, forcing them to flee, and (b) secretively substituting their own commercial corporation doing business as "The United States of America" — Incorporated, for our Federation of States.
6. In this way, they stole our identity, impersonated us, and gained access to our credit by fraud and misrepresentation.
