

How to Build an Assembly - Section 1: Introduction and History

Introduction

Congratulations on your decision to step up and help build your local county or state assembly! This is a huge task, and it takes many hands coming together to do it right. It also takes a foundational understanding of many things – like our history – (the REAL story– not what you were fed in school!), how we were called into session, what the final goal is and what the steps are to get there. Some of these things we know. Some of them we are creating based on information we have.

The foundational principles in this manual are based on the extensive research and writings of Anna Maria Riezinger, pen name Anna Von Reitz, and her team of researchers, as well as countless hours of webinar conversations. Wherever there is a reference to an article number, it refers to a particular article written by Anna. All of her articles can be found on www.AnnaVonReitz.com.

What is an Assembly?

A group of peers gathered around for a common purpose.

What is a “peer?”

Someone of the same social and political standing:

non-citizen

Man/Woman, one of the people

U.S. Citizen

Human Person, Male or Female, an indentured servant or a paid bureaucrat

citizen of the United States

Slave, UniSex, a Thing, can be a corporation, franchise, special purpose vehicle, transmitting utility, etc.

First, a Little History

Once upon a time there was a brand new baby country that had just won its independence from its motherland, (Great?) Britain.

Well... sort of. As it often goes in war, there are negotiations.

As this collection of battle weary colonies stood together on the land as a Union of states (The United States) in their new found freedom, they realized that needed some things that they weren't able to provide on their own.

So, they contracted with the Holy See and the British Crown to provide them with certain limited governmental services that fell into the jurisdictions of the air and the sea. They also formed their own American, land- jurisdiction contractor to join the team. Each of these three contractors (translation: corporations) had its own contract, known as a "Constitution" (yes, there are actually three constitutions!) and worked together to provide governmental services - 19 enumerated powers, to be exact - that were needed to run the country.

The three subcontractors of
The United States of America
(unincorporated)

1

Confederation of States
"States of America" Federal Republic
governed by

The Constitution for the united States of America
General Jurisdiction
1787-1860

Responsible for running general business in the realm of International Commerce & Trade & Foreign Relations

2

Territorial United States Government "the" United States of America
governed by

The Constitution of the United States of America
International Sea Jurisdiction
1789-present

Military and Territorial Property Management run by the British Territorial United States

3

Municipal United States Government "the" United States
governed by

The Constitution of the United States
Global Air Jurisdiction
1790-present

The beginning of the fraud...well, some of it anyway!

Skip ahead about 84 years and things got a little interesting. You see, the Motherland wasn't all that thrilled to have lost this beautiful, abundant, and profitable land. And now they were angry because the price of cotton produced in America, which they were now dependent upon for their textile mills, was too high. So with the help of France, they plotted to take over.

But how?

The easiest way to take over any group of people is to divide them first.

They observed that the issue of slavery and the differences between the "whigs" of the north and the plantation owners of the south were creating tensions (whigs was a political party). So they decided to use the issue of slavery to divide the people politically, stage a mercenary conflict over it to weaken us, then come in and take over and stage a military occupation.

But first, they made sure they had a British Subject in charge whom they could control.

Enter stage left, Abraham Lincoln!

Yep, good ol' "Honest Abe" was a BAR attorney, holding allegiance to the British Crown.

This meant he did not have the status, standing or Provenance to operate as The President of The United States of America, our unincorporated Federation of States, nor could he be President of the States of America, our Federal Republic unincorporated (land jurisdiction).

So as “president”, he actually was operating as CEO for the British Territorial corporation known as “the” United States of America, Inc.... Pretty sneaky, eh?

This statue of Abraham Lincoln is WHERE??

How about... Westminster, London!
Hmm, makes you wonder where his true allegiance was?

Hint: British Accreditation Registry (BAR).

Less than three weeks later, on April 15, 1861, “President” (CEO) Lincoln reconvened Congress under the Executive branch by proclamation (not an executive order at this point): “I do hereby, in virtue of the power in me vested by the Constitution, convene both houses of Congress.” (Hm... which constitution was he referring to you may wonder? And which congress?)

Eventually Executive Order 100 became the Lieber Code in 1863. Click here to check it out:

But, the 7 Southern States that bailed during the war did not return, so 1/3 of our Federal government was missing – and has been missing all this time! In the mean-time, the remaining 2/3 took advantage of this fact to take over, run amok and become the bloated, overreaching, multi-tentacled monster that has fraudulently usurped powers that were never theirs to begin with.

Notice the Roman Pillars under each arm?

The Simple Facts – in sum

1. Our actual government – which we are owed and which we owe ourselves, – is not fully operational.
2. It is not functioning as it should be because it was never fully restored after the “Civil War”.
3. We have not restored it because we were not informed that it needed to be restored – certain parties profited themselves by keeping that obscured.
4. Foreign contractors have been performing and controlling services never delegated to them, and never asked by us to provide. This is all to their advantage, not ours.

Every country on Earth has both a peacetime and wartime flag. The flag shown below is the American Peacetime flag.

The Civil Peacetime Flag

The American people are not at war.

Our States and our Federation of States were never involved in the mercenary conflict known as the Civil War. It was fought completely by the American States-of-States and the Territorial and Municipal corporations within the air and water jurisdictions. The Land and Soil Jurisdiction has been at peace continuously and remains so to this day. That's why we Americans, standing on the land & soil, fly the Civil Peacetime Flag instead of the wartime flag.

OK, So How Do We Fix This?

How do we get the missing part of our government – the actual American government - “States of America,” back in the game so they (we!) can take back control of our governing duties, limit the foreign subcontractors to their original 198 enumerated powers and return to the original plan our forefathers created for us?

Easy, we just need to call the actual States back into session, right? But wait... what are we exactly calling into session? And how?

Check out Section 2 for the answer!

The Three Branches of The American Government

Created by the agreement known as "The Unanimous Declaration of Independence of the united States of America", 04 July 1776, these **unincorporated** "states" were the original geographically defined "estates" formed by the United Colonies. They are guaranteed a "republican form of government". Together, they formed — a Union, a Federation, and a Confederation:

Authority Flows From Left to Right and From Above to Below

The Three Branches of the Federal (Contract) Government

The 18 Enumerated Services of our Sovereign Government above were delegated to three **Governmental Service Contractors** below. With three "Constitutions", they form the three branches of the Federal (Contract) Government — an American (Unincorporated), a Territorial (Incorporated), and a Municipal (Incorporated):

The lake-home message to you as an American is that you are most likely in the right church, but in the wrong pew. You have, most likely, been mis-identified as a **Federal Citizen** and not counted as an **State National** or **State Citizen**. Federal Citizenship is created by the Constitution(s) and therefore, **Federal Citizens** are not Parties to the Constitution and have no constitutional guarantees — only "Equal Civil Rights" that can be suspended. If you want to claim your "Natural and Unalienable" rights and property, you have to declare and record your political status as an **American State National** or **American State Citizen** (that is, a Member of your State Assembly) and you cannot act as any kind of **Federal United States Citizen** at the same time as you participate in your State Assembly. The additional message is that a large portion of your government has been "missing in action" and awaiting "Reconstruction" since the Civil War. This work can only be accomplished by properly organized State Assemblies populated by **American State Citizens**.
